

# Michigan Medical Marijuana Association

---

## **Patients - Caregivers - Physicians - Businesses**

The Michigan Medical Marijuana Association (MMMA) is a non-profit organization that is funded by memberships and donations. The MMMA has been dedicated to providing a place where the community can discuss and educate one another about information related to medical marijuana and similar topics since 2008.

The MMMA is an on-line community that provides a place where medical marijuana patients, caregivers, physicians and those interested in the business as well as general members and visitors can discuss, learn and provide information with one another.

The MMMA also advocates on behalf of the community fighting to add qualifying conditions and additional protections for those recommended to use medical marijuana as well as fought for the legalization of recreational use of marijuana.

All information on this website are opinions or news posted/reposted by members or staff. The MMMA staff of volunteers are not licensed attorneys and cannot offer legal advice. It is recommended that you contact an attorney for any legal matters.
